04-01-1951

All major military regions and the Department of Military Affairs, Ninth Corps:

We hereby forward to you for reference the directive issued by the East China and Central South regions on December 30th. The mobilization of veterans (excluding those in Xinjiang and Tibet) nationwide is not only of great significance for the replenishment of the volunteer army, but also for the entire People's Liberation Army, as it ensures the participation of volunteer personnel from all parts of the People's Liberation Army in the war to resist US aggression and aid Korea. The educational significance of this matter is significant.

Please ensure that each major military region carries out this mobilization work conscientiously and completes the tasks on time.
