

## **GAC Provisional Measures for Automobile Management**

20-03-1950

The Ministry of Transport of the Central People's Government issued an announcement on the 11th, announcing the implementation of provisional measures for national automobile management. These measures were approved by the GAC on March 20th.

The purpose of these measures is to unify the management of automobiles and drivers nationwide to ensure automobile driving safety. These measures will be implemented under the unified leadership of the Ministry of Transport and the regional management of the transportation departments of major administrative regions, and will be carried out by the provincial highway authorities and designated agencies of the municipal governments. The measures include specific provisions on vehicle and driver classification, vehicle management related to inspection, license plates, registration, driver's license testing and registration, and driving rules.
